Tao [ta:əu]

Kombinirajući urbanističke i oblikovne karakteristike mahale i projektne zahtjeve, prvi korak je bio podjela volumena na dva dijela, podužno lijevi i desni blok, po čemu je zgrada i dobila ime TAO House.

Tao je u kineskoj filozofiji definisan kao jedinstvo suprotnosti.

Jin i Jang simboliziraju dvojnosti u svijetu kao što su: svjetlo i tama, muško i žensko, visoko i nisko, toplo i hladno, desno i lijevo. Ali jin i jang ipak se nadopunjuju i surađuju te udruženi čine tao (jedinstvo).

Mahala

Osnovne oblikovne karakteristike stambenih objekata u mahalama su jednostavnost, odnos volumena, doksati (spratne konzole iznad ulice), visoke i zatvorene ograde prema ulici kao odraz privatnosti, razučena dispozicija, prihvatanje zelenila u objekte, velike nadstrešnice, kosi krovovi.

Sve navedeno stvara human odnos objekata prema lokaciji, čovjeku i prirodi.

Stanovanje

Bitan dio kulture življenja na ovim prostorima je privatnost zbog čega autohtona bosanska kuća ima naglašeno odvajanje javnog od privatnog.

Svi stanovi su projektovani sa jasnom podjelom prostora na dio za spavanje i dio za boravak. U dijelu za boravak dio fasade se odvoja od objekta otvarajući vizuru prema gradu, dok se isti taj dio koristi kao vizuelna pregrada prema susjedima. U zonama koje nastaju odvajanjem fasade se formiraju ozelenjene terase.
